# Bruno LERAY

Painting - France

Born in 1964 in France near Nantes, Bruno Leray has trained himself by immersing in the history of the arts and by participating in workshops with established artists.

Painter of the body and the human figure, he combines his knowledge of art history and his attraction for the ancient masters with a contemporary approach to portraiture and this impossibility to grasp human nature.

Her paintings are constructed using an acrylic glaze technique, illuminating the painting with an interior light.

He mainly exhibited in France. This exhibition is her first presence in Scandinavia.
